Hi

I have received a Vodafone Mobile Connect (VMC) dongle and I am having trouble connecting to the internet with it. I have used the other USB ports on my PC and I have tried the other USB ports on my laptop. The problem is that I cannot get the internet to work. I really need to get the internet to work. Regards Paul

Connection Settings

General Network Security

Settings name: Vodafone UK Custom Settings 01

Network Preference

- All Networks**
Use these settings in any network, both Home and Roaming
- Roaming Networks Only**
Only these settings when you are outside your Home network
- Home Network Only**
Only use these settings in your Home network
